DETAILED ACTION

1. Applicant's Amendment filed 12/30/2005 has been reviewed and placed of record in the file.

2. **Claim 1** is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and **claims 28-39**, directed to the species of Figs. 1-6 and 27-34 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, **claims 8-23 and 25-27**, directed to the species of Figs. 7-12 remain withdrawn from consideration since they do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

4. **Claims 8-23 and 25-27** do not depend upon or otherwise include all the limitations of the allowed generic claim and therefore have been **canceled**.

5. Claim 24, lines 3,

“a semiconductor substrate;” has been changed to

“a semiconductor substrate, **the semiconductor substrate including diffused layers;**”

to provide antecedent basis for “the diffused layer’ on line 4.

Allowable Subject Matter

6. **Claims 1-3, 5-7, 28-39, 24, and 40** (to be renumbered 1-20) are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a nonvolatile semiconductor memory device with all exclusive limitations as recited in claims 1, 24, and 40, comprising a floating gate, diffused layers as source or drain regions (S/D regions), first and second control gates (CG1 and CG2), and an inter-gate insulating film (IGI) including a first portion and a second portion, characterized in that said CG1 and CG2 are formed above the S/D regions and only on the opposite sides of the floating gate; and in that said first and second portions contact the floating gate and the lower surface of the CG1 or CG2 respectively, the first portion including a silicon nitride film or an aluminum oxide, and the second portion being a single layer of a silicon oxide film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu-Tu Ho whose telephone number is (571) 272-1778. The examiner can normally be reached on 6:30 am - 5:00 pm.
